BRITCHAM SCHOLARSHIP AWARD

This BritCham Scholarship Award is jointly funded by British Chamber of Commerce (BritCham) Indonesia together with Altilium Group Ltd and Teesside University.

The donors are each contributing GBP 7,000 to give a student fully-funded tuition fee.

This Award provides for a fully-funded tuition fee scholarship only for the one-year MSc Chemical Engineering programme at Teesside University for Indonesian nationals applying for the September 2023 intake.

TERMS AND CONDITIONS

- By applying for this scholarship, you are agreeing to your personal details being shared with the scholarship panel members and any other parties that BritCham Indonesia deems necessary to involve in this process.
- This scholarship will be awarded as a full tuition fee waiver following enrolment in MSc Chemical Engineering programme at Teesside University in the 2023/2024 academic year. It cannot be paid as cash or attributed to other charges.
- This award is for one academic year only and is not recurrent for subsequent years of study.
- The award cannot be deferred or postponed and is valid for the academic year of 2023/2024 only. You will also be required to complete a formal application to Teesside University.
- You will also be asked to agree to BritCham Indonesia contacting you during and following the completion of your studies to seek updates about how the Award may have impacted on or influenced your career.
- On successful completion of your MSc, you agree to be contacted by Altilium Group Ltd regarding the possibility of employment with the company. If you receive any offers of employment following your studies, you agree to provide Altilium with the right of first refusal to employ you.

If you have any questions, please direct them to scholarshipaward@britcham.or.id with subject [QUESTIONS YOUR NAME] BritCham Scholarship Award 2023

ELIGIBILITY CRITERIA

TO APPLY FOR THIS BRITCHAM SCHOLARSHIP AWARD, YOU MUST (BE):

- An Indonesian national (WNI) currently residing in Indonesia,
- Have completed Bachelor's degree in chemical engineering, process engineering or relevant engineering discipline equivalent from universities in Indonesia*,
- Have at least 2 (two) years of work experience in a related field,
- Have a cumulative GPA of minimum 3.2 (out of 4.0) proven by latest academic transcript,
- Have adequate English proficiency with minimum score of IELTS 6.0 with no less than 5.5 for each band <u>or</u> TOEFL iBT 80 (listening 17, reading 18, writing 17 and speaking 20),
- Never have violated the rules, norms, and/or laws applied in Indonesia and/or in any other countries,
- Self-declared that you have sufficient funds for travel, visa, accommodation, health surcharge, and/or miscellaneous expenses for the duration of the academic programme.

*) Graduates from BritCham Indonesia's collaborating local universities will be preferred.

REQUIREMENTS

Documents Required:

- 1.Certificate of Bachelor's degree completion (both in English and Bahasa Indonesia)
- 2. Academic transcript (both in English and Bahasa Indonesia)
- 3. English proficiency certificate (IELTS/TOEFL-iBT)
- 4. Copy of Passport
- 5. Curriculum Vitae
- 6. Motivational letter (Refer to questions below)
- 7. Sign the BritCham Scholarship Award Declaration Letter (Refer to Annex)

Questions for the motivational letter:

To be considered for BritCham Scholarship Award, you are required to answer the following questions (no less than 300 words and no more than 1000 words maximum per question):

- 1.Tell us your opinion about Indonesia's goal of Carbon Net-Zero and how have you contributed as an individual and with others to support this ambition?
- 2. What experience and skills do you have that will make you a suitable candidate for this BritCham Scholarship Award?
- 3. How do you think studying in the UK as BritCham Indonesia Scholar in MSc Chemical Engineering at Teesside University will help in your future career advancement?

Please send all of the documents to scholarshipaward@britcham.or.id with subject [APPLICATION YOUR NAME] BritCham Scholarship Award 2023

ABOUT BRITCHAM INDONESIA

The British Chamber of Commerce in Indonesia (BritCham) has represented business for 40 years and builds on a British business presence that extends more than a hundred years.

Over those years, we have had the pleasure of welcoming the most influential politicians, business leaders, world commentators, renowned experts in various fields and academicians as guests to over various forums.

Last year, we hosted more than one hundred events that provided broad platforms for business development amongst our members.

Working in partnership with the British Embassy (DIT) and the British Council, whose senior representatives sit on our Board of Management, BritCham is committed to developing a services infrastructure that supports all stages of business development right from their inception in Indonesia.

Recently, the Chamber established a new unit; **BritCham Education Centre**. This unit is a wholly-owned business unit of BritCham Indonesia sitting within the BritCham Executive Office.

This unit offers a holistic approach not only to bring together Indonesian nationals looking to the UK for their education, including internship, work experience and formal education providers but also bluechip employers seeking the best returning talent.

ABOUT ALTILIUM GROUP LTD

Altilium Group Ltd is a British company established in the UK in 2019. Its operating business has a much longer heritage, dating back to 2008 when it initially acquired the rights to the ground-breaking DNi Process.

In the early stages of development, the company worked closely with Australia's highly respected Commonwealth Scientific and Industrial Research Organisation (CSIRO), testing the process at a pilot plant in Perth, Australia.

That test work, which was completed in 2014, delivered highly successful and encouraging results. The recent development of the EV industry delivered a new opportunity for the DNi Process.

ABOUT TEESSIDE UNIVERSITY

Teesside University was first established as Constantine Technical College back in 1930 to support Middlesbrough's booming engineering and shipping industries in 1930.

The college became a polytechnic in 1969 and then one of 14 new universities approved by the Privy Council in 1992. Teesside University is one of the first institutions in the UK that set up the School of Computing.

The University is now home to DigiCity which has generated more than 200 new businesses and is contributing more than £170 million per annum to the Teesside economy.

ABOUT THE COURSE

MSc CHEMICAL ENGINEERING

The MSc Chemical Engineering postgraduate course is ideal if you are a chemical engineering undergraduate or if you are working within the chemical and process associated industries – pharmaceutical, fertilisers, power and energy, or water companies – and are looking for professional development, for a promotion and/or to get up to date with industry standards and research.

You cover a range of advanced chemical engineering subjects, broadening and

deepening your understanding and knowledge of the field.

You have the opportunity to develop your skills in synthesising information from a wide variety of sources and developing your decision-making abilities in solving complex chemical engineering problems.

Themes within the course include:

- sustainability (recycling, better use of raw materials)
- electrochemistry (battery technology and renewable energy).

This course provides you with an industrially, commercially and professionally relevant education by developing your lifelong learning skills, fostering an ethos of continual professional development and giving you a progression route for further professional development.

Teesside University has a 50-year history of teaching chemical engineering. You may also have the opportunity to link in with the university's ERDF-funded project on

The development of hydrogen economy and other on-campus and regional industry-based research projects.

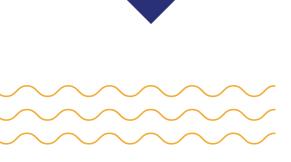

Their chemical engineering graduates have gone on to work for companies including SABIC, Johnson Matthey, Sembcorp, GlaxoSmithKline and CF Fertilisers.

For more information about the course, please click <u>here.</u>
